

Brookside
LAWN SERVICE, INC.

Where the grass is always green!

WEEDS

...AND MORE WEEDS?

Don't Fret.

Weed Control is what we do—
trust in our professional services.

TARGETED WEED CONTROL

Focuses on removing specific weeds while leaving surrounding grass or plants unharmed.

HEALTHIER LAWN

The first step in weed control is to develop a dense, properly managed turf. When your grass is healthy and thick, it blocks sunlight from reaching weed seeds so they can't germinate.

PREVENT FUTURE GROWTH

The goal is to prevent weeds before they begin to grow.
